In administration cases, the Caseworker will open a file on receipt of proposal or process the proposal in the existing file. The Section Officer will scrutinize the proposal and place it before the Administrative Officer. The Administrative Officer takes the decision in respect of service matters of Group-D employees and in respect of A, B and C Officers and officials, the file would be submitted for the decision of the learned Advocate-General. In respect of certain matters like sanction of leave and other service matters, the Administrative Officer is authorized to take decision. Where the Government's approval or orders required, the same would be sought from the Government.

The Court has further observed, if a person is appointed as a Advocate General say at the age of 55 years, he need not cease to hold the office on attaining the age of 62 years. On the same analogy, the Court has held that a person who crossed the age of 62 years can also be appointed as Advocate General.

The post of Advocate General is a public office and he is the foremost Law Officer of the State. The Courts have held that a concession made by a Government Pleader may not bind the Government unless it is based on instructions from a responsible officer. However, that liberty does not apply to a concession made by the Advocate General as he is assumed to make a statement with responsibility.

In Karnataka, recently in January/February, 2009, the post of Additional Advocate General has also been created. The State in exercise of its jurisdiction under Article 162 of the Constitution of India, is competent to appoint advocates of its choice and designate in such a manner as it may deem fit and proper. A person appointed as Additional Advocate General only becomes another Law Officer and he is not authorized to perform any constitutional or statutory functions.

The Advocate General is entrusted with certain statutory functions and some of these statutory functions are as under:-

A. CONTEMPT OF COURTS ACT, 1971

Section 15 of the Contempt of Courts Act states that in case of a criminal contempt other than a contempt referred to in Section 14, Supreme Court or the High Court may take action on its own motion or on a motion made by Advocate General or any other person with the consent in writing by the Advocate General. Section 2(c) of the Contempt of Courts Act is defined as under:

“(c) “criminal contempt” means the publication (whether by words, spoken or written, or by signs, or by visible representations, or otherwise) of any matter or the doing of any other act whatsoever which-

- i. Scandalizes or tends to scandalize, or lowers or lends to lower the authority of, any court; or
- ii. Prejudices, or interferes or tends to interfere with, the due course of any judicial proceeding; or
- iii. Interferes or tends to interfere with, or obstructs or tends to obstruct, the administration of justice in any other manner;”

In all such cases, the Advocate General himself can move the court for initiating criminal contempt or grant consent in writing for initiation of such proceedings.

ADVOCATES ACT, 1961

Section 23 of the Advocates Act states that certain Law Officers of the State shall have pre-audience. The Attorney General of India shall have pre-audience over all other advocates. The Advocate General of any State shall have pre-audience over all other advocates. Section 3 of the Advocates Act, 1961 provides that the State Bar Council shall also consist of Advocate General of the State as Ex-Officio member.

B. CODE OF CIVIL PROCEDURE, 1908

Section 91 of C.P.C. deals with cases relating to public nuisance or other wrongful act affecting the public. In such case, a suit for declaration and injunction or such other relief can be filed either by the Advocate General or by two or more persons with the leave of the Court.

Section 92 of the C.P.C. deals with filing of suit in cases of breach of any express or constructive trust created for public purposes of a charitable or religious nature. In such a case, the suit can be instituted by the Advocate General or two or more persons having an interest in the trust and obtain leave of the court and as such, any matters relating to public charities and trust, the suit relating to

administration of such trust can be filed by the Advocate General.

C. CRIMINAL PROCEDURE CODE

Section 302 of Cr.P.C. provides that a Magistrate enquiring into a case may permit the prosecution to be conducted by any person other than a Police Officer below the rank of a Inspector. However, Advocate General, Public Prosecutor or Assistant Public Prosecutor is entitled to conduct the prosecution without obtaining any such permission.

In regard to norms/standards set by Public Authority for the discharge of its functions, depending on urgency proposals will be finalized on priority. The basic functions of office of Advocate-General is appearing and conducting the cases before the High Court and other courts on behalf of the State of Karnataka whenever the cases are posted and taken by the Court for hearing. There are no functions of delivering services to the public as the this Department is required to oppose and defend the action of the Government in petitions filed by the general public, corporates etc.
